Sightseeing in Kos

The Askipiion is the first medical institute founded by Hippocrates, the father of medicine who was born in Kos.

The Castle lies in the main harbour of the island and it's the most imposing monument of the Venetian period.

The walls were built for the defence of the town, between 1391 and 1396.

The Museum is in 25th Martiou str., in central square Eleftherias. Visiting Hours: 8:30am-2:30pm (Closed: Monday)

Hippocrates Plant Tree, it is believed that this tree, located in Kos town, was planted by Hippocrates more than 2.400 years ago. It was one of the locations Hippocrates favoured to teach medicine to his students. **The Odeon** was found in 1929 by the Italian archaeologist Lavrenzi
