Kalamaki Marina by Taxi

One of the best ways of traveling in Greece is by taxi. There are about 18.000 taxies in Athens only and they are running at reasonable cost. Tariffs are controlled by the Greek state and are valid throughout the country. You can hail a taxi in the street or book one by phoning a local cab company at extra cost.

The use of a taximeter is compulsory by law and you should be aware of this. There are two basic tariffs, tariffs 1 and 2. Depending on the time of day and the journey, the driver must select the correct rate. Tariff 1 is the "day rate" used during 05.00-24.00 and tariff 2 is the night rate valid 00:00-05:00. Also, tariff 1 is used within the limits of the town or city where the taxi is registered and tariff 2 outside that zone. The number 1 or 2 should be clearly visible on the taximeter.
